

ETOSHA OBERLAND LODGE • FACTSHEET 2022

LODGE

The Etosha Oberland Lodge, at the southern entrance of Etosha National Park, combines luxury with a lot of privacy. Like in an English garden nestles the main house with restaurant, pool, bar and a cozy lounge with fire place. The garden invites to tea time. In the evening a 4-course menu is served. Large mopane trees are home to many private places that have a fantastic view of the wide grassy plain and to the water hole. Guests will observe numerous wildlife with a sundowner on the restaurant terrace after eventful days in the Etosha National Park.

Etosha Oberlands spacious guesthouses are lovingly integrated into nature. All houses are positioned apart from each other, hardly perceived by their neighbours and promise much privacy. The chalets and their terraces offer a unique view of the savannah. On approximately 75 m², tasteful design and stylish decor present the background for an unforgettable stay.
